RIELLO HIGH EFFICIENCY CONDENSING BOILER

HIGH QUALITY 316L STAINLESS HEAT EXCHANGER

Heat Engine with a unique " Helix " style design. Advanced design for greater reliability and an extended life. The heart of the ARRAY boiler is the power unit module. Patented heat exchanger geometry consists of two stainless steel smooth pipes working in parallel eliminating the need for internal baffles.

INSTALLATION ADVANTAGES

- Ease of commissioning & maintenance
- Minimum training required
- Saves space and easy to install
- Perfect for new installation and retrofit projects
- Quick-to-install, cost-efficient accessories
- Pumps and isolation valves for each module are included
- Built in Lead/Lag Control
- Built in Outdoor Reset

OPERATION & MAINTENANCE

- Internal cascade redundancy always delivers reliable performance with no downtime
- Simple maintenance: each module can be serviced while the others are running
- Easy roll-out module configuration: the boiler can work with one or more modules removed
- Each module is 100% redundant 96.1% AHRI rated thermal efficiency

CASCADE UP TO 8 BOILERS

Input Rate up to 32,000 MBH Turn-Down up to 320:1

ABOUT US

Joseph M. Day Company has its roots in combustion engineering and maintains a reputation for excellence as a reliable boiler equipment and service provider. We support boiler system operations and projects optimizing safety, efficiency and reliability.
